6. https://swapi.dev/api/starships/?search=falcon
7. Yes it does include all of those and it is expecting an array to be sent of all posts.it is expecting the new post that will be sent
8. The GET request returns a datatype of a String
9. practiceapi.devmountain.com/api/555
10. There are two different possible responses. The first one is a 409 code that says that the " Request query is missing required text property" and a 200 code that says, "Returns an array of filtered posts"
11.
https://practiceapi.devmountain.com/api/posts/

```
{
   "text": "Porter"

}
```

12. Put https://practiceapi.devmountain.com/api/posts/

```
{
 "text": "blue"
}
```

13. https://practiceapi.devmountain.com/api/posts/filter?text=blue
14. It returns a integer, a string, and another string
15. Request was missing req.query.id or req.body.text
